

INTERPOL

MARITIME SECURITY SUB-DIRECTORATE

Maritime Piracy Investigations - Overview

Mr. John Barry

27 January 2015

INTERPOL's commitment to combatting piracy in south-east Asia

INTERPOL is poised to support the efforts of the law enforcement community to tackling crime wherever it may occur.

To this end, INTERPOL and, in particular, its **maritime security sub directorate**, has signed a cooperation agreement between INTERPOL and ReCAAP-ISC, 2012:

The Regional Cooperation Agreement on Combating Piracy and Armed Robbery Against Ships in Asia – Information Sharing Centre,

INTERPOL Hostage Debriefing Project

1. A key constituent of this regional cooperation agreement between INTERPOL and ReCAAP is the facilitation of information sharing concerning incidents of maritime piracy.
2. This is to be accomplished through the exchange of information between law enforcement agencies, member states and international organizations.
3. In particular, the debriefing of hostages who have been released from pirate custody provide vital information in this regard.
- therefore, INTERPOL has initiated the **Hostage Debriefing Project**.

4 key objectives for hostage debriefing
