

Change Password

Click  and you will get Change Password Option in drop down menus as shown in below picture

Clicking [Change Password](#) below Screen will open. Enter the Old Password and then New password, re-enter the new password in Confirm password section and submit to successfully Change Password

The screenshot shows a 'Change Password' form. The form has a title 'Change Password' and three input fields: 'Old Password', 'New Password', and 'Confirm Password'. Each input field has a small eye icon to the right of the text box, indicating a toggle for password visibility. Below the input fields is a red 'Submit' button. The form is centered on a white background.
