

TAI CHONG CHEANG STEAMSHIP CO (SINGAPORE) PTE LTD

SAFETY AND ENVIRONMENTAL PROTECTION POLICY

As a Reputed Shipping Company, we commit ourselves

**TO PROVIDE SAFE, RELIABLE, EFFICIENT AND HIGH QUALITY
TANKER AND BULKER TRANSPORTATION SERVICES.**

TCC Group is committed to achieving Operational Excellence and delivering flawless customer service by employing a balanced risk-opportunity based approach to the integrated management of Health, Safety, Security, Environment protection and Quality Assurance.

- Strive for Zero Incidents through Operational Excellence.
- Prevent personal injury, loss of life, harm to personnel and damage to property by eliminating hazards, reducing HSSE and QA risks and holding Health and Safety as our top priority.
- Provide safe and healthy working conditions that promotes well-being for all employees.
- Operate sustainably by preventing pollution, spills and minimize emissions that may impact the environment.
- Safeguard personnel and property through risk-based security assessment and mitigation measures.
- Meet or exceed all compliance obligations working closely with all concerned parties.
- Consult with appropriate stake holders and their representatives on HSSE and QA matters and enable their participation and contribution.
- Manage our vessels to ensure reliable performance, maintaining structural integrity and with the application of suitable standards which support the TCC brand.
- Enhance the competence of employee's through adequate training and career development.
- Continually review and promote the HSSE and QA management system to enhance performance.
- Use performance measures through Quality Assurance as part of the continuous improvement process.

In maintaining these policies Company will remain Transparent and "Principle Driven".

To implement these policies, the Company has established a **SAFETY MANAGEMENT SYSTEM, (SMS) TO GUIDE SAFE OPERATION OF FLEET VESSELS AND FOR THE PROTECTION OF THE ENVIRONMENT**. The SMS applies to TCC Singapore and to all TCC Group managed vessels.
