

YANMAR SERVICE NEWS

Subject	Addition of fuel injection nozzle body identification number incise mark		Issue No.: 20-2-G-06-003-L Date: 2020.06
Engine Model	All medium and large engines	Use	Marine Main,Aux & Industrial
		Engine Nos.	-

1.Summary

Regarding the marking on the fuel injection nozzle body, an identification number will be added to improve production controllability.

Only the marking for identification is added, there is no change in the specifications or performance of the nozzle.

2.Content

An identification number (4 digits) will be stamped in front of the current marking (Yanmar mark or logo).

※The official logo is hidden to prevent imitation.
